

Storm Water Pollution Prevention Forum

DES Field Office, Pease Tradeport, 50 International Drive, Room E, Portsmouth

June 6, 2006 8:00 AM - Noon

Creating Best Management Practices for Storm Water Permit Compliance

The Seacoast Storm Water Coalition, in cooperation with the DES and NH Estuaries invites you to participate in a forum and share your thoughts in developing standard operating procedures (SOPs), such as:

- S Tracing illicit discharges
- S Catch basin cleaning
- S Outfall repair
- S Erosion & sediment control
- S Spill clean-up
- S Parts cleaning
- S Street sweeping

And more...

Your efforts will help New Hampshire Storm Water Phase II Communities meet a portion of federal EPA storm water pollution prevention regulations.

The result of this project:

A Manual - a set of technical standards and guidance on storm water management measures and practical inspection sheets and checklists, which will assist you with documentation of your program.

It is a valuable tool on an operational level and is viewed positively by the regulators.

What will you do at this forum?

You won't have to write the Manual – that's what the consultants were hired for!

But you will need to give us your opinion. The forum will be set up as a round table discussion.

Who Should Attend:

Foreman and Supervisors
Mechanics
Parks & Recreation
Road / Highway Crews Dept Personnel
Equipment Operators, including:

Vac Truck Operators
Street Sweep Operators
Bull Dozer Operators
Truck Drivers

*For questions or additional information
call Barbara McMillan at 603-271-7889*

Registration Fees:

NONE! It's free!

And we need your valuable input – these procedures will establish work practices you will ultimately need to comply with – now's your chance to make your opinion count.

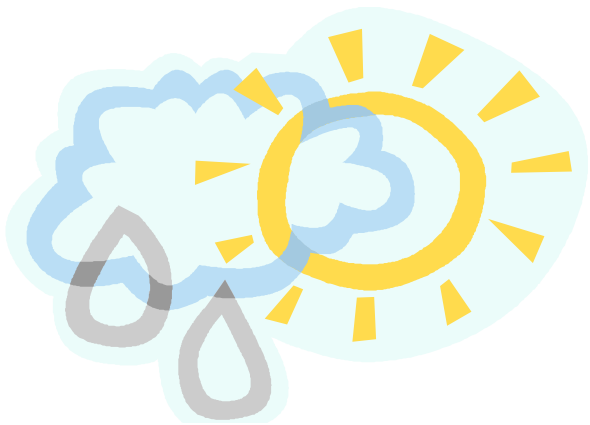

To register, complete the form (backside of this page); fax to Barbara McMillan (603) 271-7894, no later than May 26, 2006.

Location:

June 6, 2006
DES Field Office, Pease Tradeport
50 International Drive – Room E
Portsmouth, New Hampshire
8:00 AM – Noon

Directions:

NH-16 / Spaulding Turnpike coming from the North or South =>Exit 1.
If traveling North turn right onto Gosling Rd; if traveling South turn left onto Gosling Rd. Gosling Rd becomes Pease Blvd. Go to four-way intersection and turn right onto Manchester Square. Take the next left, which goes into the parking lot of the building. Enter doors at the middle of the building.

YOU ARE INVITED
